

# ON-SITE HEMODIALYSIS AND PERITONEAL DIALYSIS AT NYC HEALTH + HOSPITALS/CARTER

NYC Health + Hospitals/Carter has become an even better nursing home option. We now offer residents on-site hemodialysis and peritoneal dialysis that is more safe, gentle and faster.

Dialysis services are delivered five days a week for two hours. This is different from the traditional three day per week dialysis treatment model which has recovery times of up to eight hours.

**Less Hassle** — No more waking up early to get ready for a long day traveling to a dialysis center for treatment. You tell us what times work best for you and we will schedule your dialysis when it is most convenient.

**Improved Recovery Time** — Because our dialysis machines are faster and more gentle, you will experience much less fatigue and can expect recovery times of less than one hour.

**Improved Quality of Life** — With on-site dialysis services and flexible treatment times, residents will have more time to schedule other on-site services such as rehab, recreational activities or visits from family and friends.

**Lower Infection Risk** — Residents do not have to go to an outside facility to receive treatment. The service is only available to our residents, so we can ensure the highest infection control standards.

**Designated Dialysis Den** — Our spacious dialysis den can treat up to four patients at a time. Each resident requiring dialysis treatment is assigned their own machine.

**Reduced Hypertension and Anemia** — Because our dialysis machines are more technologically advanced and safer, some residents might experience a positive reduction in their blood pressure and an increase in their blood-iron levels—positive factors that contribute to residents' overall health.

**Take a Tour** — Scan the QR Code with your camera to take a virtual tour of NYC Health + Hospitals/Carter's on-site Dialysis Den. Visit us online at [nychealthandhospitals.org/carter](http://nychealthandhospitals.org/carter)

**To learn more about on-site dialysis services at NYC Health + Hospitals/Carter, contact Jocelyn Gonzalez, Director of PAC Admissions, at 929-243-0293.**
