

COVID-19 Vaccine Third Dose Eligibility Criteria

NYC
HEALTH+
HOSPITALS

You must meet the following three conditions to be eligible for a third dose of COVID-19 vaccine:

- + You are 12 years of age or older.
- + You received two doses of either the Pfizer or Moderna vaccine at least 28 days ago.
- + You have a condition or receive treatment that weakens your immune system. Some conditions and treatments may include:
 - Currently receiving treatment for cancer (such as chemotherapy)
 - Had an organ transplant and are now taking immunosuppressive therapy
 - Currently receiving treatment with high-dose corticosteroids (≥ 20 mg prednisone or similar) or taking medicine that weakens your immune response
 - Had a stem cell transplant in the past two years
 - Have an advanced or untreated HIV infection
 - Have another cause of moderate or severe immunodeficiency (genetic syndromes)
