

## VACCINATIONS FOR ALL

### You must meet the following three conditions to be eligible for an additional dose of COVID-19 vaccine:

- + You are 5 years of age or older.
- + You received two doses of either the Pfizer, Moderna or a single dose of the Johnson & Johnson vaccine at least 28 days ago.
- + You have a condition or receive treatment that weakens your immune system. Some conditions and treatments may include:
  - < Currently receiving treatment for cancer (such as chemotherapy)
  - < Had an organ transplant and are now taking immunosuppressive therapy
  - < Currently receiving treatment with high-dose corticosteroids ( $\geq 20$ mg prednisone or similar) or taking medicine that weakens your immune response
  - < Had a stem cell transplant in the past two years
  - < Have an advanced or untreated HIV infection
  - < Have another cause of moderate or severe immunodeficiency (genetic syndromes)
