WHEREAS, in November 2020, following an RFP, the System’s Board of Directors approved contracts with the 7 Vendors to perform to provide professional construction management services on an as-needed basis at a cost not-to-exceed $10 Million over a five-year period including two one-year options exercisable only by the System; and

WHEREAS, of the $10 Million approved, currently less than $2 Million remains uncommitted although the allowed term of the Vendor contracts has almost three years remaining; and

WHEREAS, the Vendors have committed to MWBE participation of at least 30% detailed in the November 2020 Resolution and have adhered to their plans and three of the seven firms are MWBE; and

WHEREAS, the Senior Vice President – Office of Facilities Development will be responsible for the administration of the agreements.

NOW, THEREFORE, be it

RESOLVED, that New York City Health and Hospitals Corporation (the “System”) be and hereby is authorized to increase the funding for seven Construction Management (“CM”) consulting firms namely AECOM USA Inc, Armand Corporation, Gilbane Building Company, Jacobs Project Management Co., McKissack & McKissack, TDX Construction Corporation, The McCloud Group LLC (together, the “Vendors”), from the $10 Million cap set in November, 2020 when the Board of Directors authorized contracts for the Vendors to provide professional construction management services on an as-needed basis by $40 Million to bring the limit for all Vendors to a new amount not to exceed of $50 Million.
EXECUTIVE SUMMARY
INCREASE IN FUNDING FOR
SEVEN CONSTRUCTION MANAGEMENT COMPANIES

BACKGROUND: In fall of 2020 the System conducted an RFP for professional construction
management firms. The System supplements its own forces with requirements
contractors in various fields to provide the manpower and expertise that the System
cannot economically sustain at the level needed for large projects. In November 2020,
the System’s Board of Directors approved contracts for seven Construction Management
consulting firms: AECOM USA Inc, Armand Corporation, Gilbane Building Company,
Jacobs Project Management Co., McKissack & McKissack, TDX Construction
Corporation, The McCloud Group LLC (the “Vendors”). The not-to-exceed cost of the
contracts was set at $10 Million over the 3-year term plus 2 one-year System options.
Due to various developments, the $10 Million in approved funding is proving to be
grossly inadequate such that to date, after less than two years of the potential five-year
term, only approximately $1.7M remains entirely uncommitted. Fortunately, the System
has been able to attract substantial additional capital funding from the System’s recent
bond refinancing yielding $98 Million, $1.2 Billion in Mayoral funds for FY 22-26 and
$30 Million in Borough President and NYC Council funds for FY 22

NEEDS/PROGRAM: The System needs these additional capital funds to finance the significant capital
projects required. The System has substantial accumulated needs due to inadequate
funding in the past to stay current with the cycle of replacing major mechanical systems
and repairing or replacing structural elements of the System’s hospitals and other
buildings. Additionally, the System wishes to push forward programs to improve clinical
facilities, reduce energy inefficiencies, improve parking facilities and construct new
facilities where appropriate. Because of the increased volume of capital projects, the
System will call upon its contracted construction managers more often and it needs the
increased funding to be authorized by the Resolution to pay the additional cost.

TERMS: The terms of the previously authorized contracts will not change.

MWBE: All the Vendors are meeting the M/WBE goals set forth in their utilization plans.
