With COVID-19, it is more important than ever to protect yourself and your children from getting sick.

COVID-19 vaccines are safe and highly effective in reducing risk of illness, hospitalization and even death.

Your children can get a COVID-19 vaccine with no out-of-pocket cost to you. Scan the QR code or call **1-844-NYC-4NYC** (1-844-692-4692).

Learn more about COVID-19 Vaccines

Who Should Get Vaccinated for COVID-19?

+ Children ages 6 months to 4 years can get three pediatric doses (one-tenth strength) of Pfizer-BioNTech

+ Children ages 5 to 11 can get two pediatric doses (one-third strength) of Pfizer-BioNTech

+ Children and adults ages 12 and older can get two doses of the Pfizer-BioNTech vaccine

+ Children and adults 5 years and older who have a weakened immune system due to a condition or treatment can get an additional Pfizer primary series dose – also known as third dose.

Who Should Get a COVID-19 Booster Shot?

Everyone 5 years or older should get a booster shot at least five months after receiving the second dose of their primary Pfizer or Moderna COVID-19 vaccination series.

People ages 5 to 17 who previously got the Pfizer primary series more than five months ago are eligible for the Pfizer booster shot only.

People who are 5 or older and immunocompromised should get a booster shot at least three months after receiving the additional dose of their primary Pfizer COVID-19 vaccination series for a total of four doses.

Hospitals in the NYC Health + Hospitals system offer Pfizer and J&J vaccines. NYC Health + Hospitals/Gotham Health sites offer Moderna vaccine and Pfizer vaccine for children 5 to 11 years of age. For a full list of locations, visit our website: **nychealthandhospitals.org**.
