Ms. Denise Grattan
Division of Environmental Permits
New York State Department of Environmental Conservation
47-40 21st Street
Long Island City, NY 11101

Re: • **NYC-HH– Bellevue Hospital – 462 First Avenue, New York, NY 10016**
• **DEC ID: 2-6206-00032-00004**
• **Public Participation Plan Progress Report**

Dear Ms. Grattan:

This letter serves to report and summarize the implementation of the components set forth in the Public Participation Plan (PPP) prepared by Environmental and Energy Solutions, Inc. (EES) on behalf of NYC-HH Bellevue Hospital and approved by the New York State Department of Environmental Conservation (NYSDEC), with respect to the State Facility Air permit application for The Installation of two 2000 kW Gas-Fired Cogen Engines at Bellevue Hospital, assigned DEC ID: 2-6206-00032/00004.

Kindly find enclosed with this letter the Public Participation Plan Progress Report which documents the following activities pursued in compliance with approved plan:

1. Summary of Public Participation Plan Meeting, held on September 28th, 2023, including public concerns.
2. Documents of public outreach.

Should you have any questions or need additional information, please do not hesitate to call us at 914-788-4165. Thank you.

Very truly yours,

ENVIRONMENTAL AND ENERGY SOLUTIONS, INC.

Tara Manning, Environmental Engineer

This report serves to summarize the implementation of the components set forth in the Public Participation Plan (PPP) prepared by Environmental and Energy Solutions, Inc. (EES) on behalf of NYC-HH Bellevue Hospital and approved by the New York State Department of Environmental Conservation (NYSDEC), with respect to the installation of two gas-fired Cogen Engines at Bellevue Hospital, assigned DEC ID: 2-6206-00032/00004.

1. Public Outreach Activities

Bellevue Hospital actively engaged with the public and provided opportunities for citizens to be informed about and involved in the review of the proposed power plant project.

Pursuant to the Public Participation activities included in the approved PPP, the project owner completed the following activities.

To inform the public about the proposed permit modifications and address CP-29 requirements, Bellevue reached out to the affected communities and the public about the project, providing them with the details to join the teleconference meeting as well as contact information for an opportunity to comment during the NYSDEC environmental permit application review process.

The stakeholders of interest and/or affected by the project that were contacted, records of the outreach are in Appendix C and the public notices are included in Appendix A and B. The Meeting Notice and a reader-friendly project fact sheet were mailed to the public two weeks prior to the meeting date, the contact tracking spreadsheet shows when, where and how. The list includes local government and elected officials; businesses, organizations, schools, residents, and occupants who live or work within a 0.5-mile radius from the project area. Since Bellevue is surrounded by a large population of Spanish speakers, Bellevue published the Meeting Notice in *El Diario NY* on 9/13/2023 and the *Manhattan Express Newspaper* on 09/15/2023 (Appendix E) and the fact sheet is provided in English and Spanish.

Part of the community outreach is a document repository which can be found at:

<https://www.nychealthandhospitals.org/bellevue/cogen-energy-system/>

Relevant documents to the permit application and project information were published online for the community to access and review information about the project at any time. The website also served as point of contact for public to comment or get contact information. The website was continuously monitored for comments before the meeting and will continue to be open.

2. Summary of Virtual PPP Meeting

Bellevue Hospital hosted a tele/videoconference meeting via Webex on September 28, 2023, at 6:30 PM. The meeting notice (Appendix A) had explicit instructions on how to join online through Webex and/or by phone and contact information for Bellevue officials.

Bellevue conducted a public Webex meeting and participants' attendance was digitally recorded (Appendix D). Bellevue presented the project's background, scope of work, environmental and community impact, and shared contact information and period for public commentary. After the presentation, the floor was opened to the public for questions, comments, and concerns. The following

questions were received:

Michael Smook, Local Resident

Question: Is there any federal funding from the Biden Administration paying for the project?

Response: The project will be paid for through municipal funding.

Question: Is the installation of Cogen Engines a New York City Health and Hospital wide project?

Response: The installation of Cogen engines is a Bellevue specific project since there are specifications and requirements that must be met to permit the use of Cogen engines.

There were no public concerns raised at the virtual meeting or to the project liaison and there have been no changes (due to public concern) made to the project. The website repository and project liaison are available to the public until the permit issued, the website will be constantly updated and monitored.

Appendix A: Virtual Public Meeting Notice

YOU ARE INVITED

Virtual Public Meeting

Thursday, September 28, 2023 at 6:30pm

Installation of a 4MW Cogeneration System at Bellevue Hospital

462 First Avenue, New York, NY 10016

New York City Health and Hospitals Corporation has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for the renewal and modification of an Air State Facility permit for the installation of two (2) cogeneration units as well as participation of six (6) generators in Coordinated Demand Response Programs (CDRP). A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this meeting is to inform the public about the project and to involve the community during the State Facility Air permit application review process.

*If joining by phone, questions, comments, and contact information for follow ups can be sent to the contact email listed below

Agenda:

- Project Overview
- Background
- Scope of work
- Project schedules
- Community Impacts
- Questions and Answers

Your Attendance is Important!

Project personnel will be available to answer questions from the community. For additional information on the proposed project:

- Contact: Anthony Muhlig by phone at 516-974-9712 or by email at amuhlig@guthdeconzo.com
- Visit the repository at: <https://www.nychealthandhospitals.org/bellevue/cogen-energy-system/>
- Contact the project liaison to request reasonable accommodation for a disability or interpreter services in a language other than English, so that you can participate in the call and/or to request a translation of any of the event documents into a language other than English.

ESTÁ INVITADO

Reuniones públicas virtuales

Jueves, 28 de septiembre de 2023 a las 6:30 p. m.

Instalación de un sistema de cogeneración de 4MW en
Bellevue Hospital

462 First Avenue, New York, NY 10016

New York City Health and Hospitals Corporation ha presentado una solicitud de renovación y modificación de permiso de instalación estatal de aire ante el Departamento de Conservación Ambiental del Estado de Nueva York (New York State Department of Environmental Conservation, NYSDEC) para permitir la instalación y operación de dos (2) unidades de generación combinada motores además de la participación de seis (6) generadores en Programas de Respuesta Coordinada a la Demanda (Coordinated Demand Response Programs, CDRP). Se ha desarrollado un Plan de Participación Pública de acuerdo con la Política del Comisionado 29, Justicia Ambiental y Concesión de Permisos (Commissioner Policy 29, Environmental Justice and Permitting, CP-29) del NYSDEC. El propósito de esta reunión es informar al público sobre el proyecto e involucrar a la comunidad durante el proceso de revisión de la solicitud del permiso de instalación estatal de aire.

*Si se une por teléfono, las preguntas, los comentarios y la información de contacto para el seguimiento se pueden enviar al correo electrónico de contacto que se detalla a continuación.

Agenda:

- Descripción general del proyecto
- Antecedentes
- Alcance de la obra
- Cronograma del proyecto
- Impactos en la comunidad
- Preguntas y respuesta

¡Su participación es importante!

El personal del proyecto estará disponible para responder preguntas de la comunidad. Para obtener información adicional sobre el proyecto propuesto:

- Contacto: Anthony Muhlig por teléfono al 516-974-9712 o por correo electrónico a amuhlig@guthdeconzo.com
- Visite el repositorio en: <https://www.nychealthandhospitals.org/bellevue/cogen-energy-system/>
- Comuníquese con el enlace del proyecto para solicitar adaptaciones razonables por una discapacidad o servicios de interpretación en un idioma que no sea inglés, para que pueda participar en la llamada o para solicitar una traducción de cualquiera de los documentos del evento a un idioma que no sea el inglés.

Appendix B: Fact Sheet about Meeting

Cogeneration System **at Bellevue Hospital** **Fact Sheet**

- **Project:** Installation of 2 Cogeneration Units
- **Applicant:** NYC Health and Hospitals Corporation
- **Facility:** NYC Health and Hospitals – Bellevue Hospital, 462 First Ave, New York, NY 10016
- **NYSDEC Application Number:** 2-6206-00032/00004
- **A Public Participation Plan (PPP) has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)**

What is the Proposed Project?

The Proposed Project will involve the installation and operation of two (2) new natural gas fired cogeneration engines – Caterpillar G3516H, each with 1982 kW rating.. To implement the proposed project, NYC Health and Hospitals has submitted an application for an Air State Facility Permit Renewal with Modifications to the New York State Department of Environmental Conservation (NYSDEC) to permit the installation and operation of these engines in addition to their current permit that covers participation of six (6) generators in Coordinated Demand Response Programs (CDRP). The nature of the project is to enable the Hospital to generate its own heat and electricity, offering greater energy independence by moving a portion of the load off the grid. The purpose of this fact sheet is to inform the public about this proposed project and to involve the community during the NYSDEC permit application review process.

Why does NYC HHC need to Install Two Cogen Engines?

The primary goal of this project is to provide Bellevue Hospital with a 4MW Combined Heat and Power (CHP) system capable of meeting two tasks: (1) Delivering on-site power to the facility in the event of an electrical utility outage for an extended amount of time, and (2) Reducing energy costs and increasing energy efficiency for the facility.

How might the project affect the surrounding community?

The installation of these cogeneration units will lead to an increase in air emissions on the Bellevue Hospital Site, but will reduce the facility's overall energy use. Air quality modelling has been performed to ensure the addition of these units will not impact ambient air quality. Installation of these new, state-of-the-art engines will create resiliency for the hospital in the case of extreme weather events or power outages, ultimately benefitting the members of the community who utilize the hospital's services. Participation in Coordinated Demand Response Programs will also help reduce strain on the power grid to help New York City avoid blackouts.

How can I participate in the permit review process?

- Attend the upcoming virtual public meeting scheduled on Thursday, September 28, 2023 at 6:30pm to learn about the project, ask questions and/or express concerns about the project.
- Ask questions, express concerns, provide input or submit by comments in writing, by phone or email to the project contact person identified below.

Where can I get more information about the proposed project?

- Visit the online document repository at: <https://www.nyhealthandhospitals.org/cogen-energy-system/> to obtain application materials, relevant documents, and information about the project.
- Contact Anthony Muhlig by phone at 516-974-9712, by email at amuhlig@guthdeconzo.com or in writing at: 1983 Marcus Ave., Suite 103 | Lake Success, NY 11042 for information on the project, instructions on how to attend the upcoming virtual public meeting, or to find out about the status of the permit application and public comment period.

Who is responsible for reviewing the Permit Application?

- NYSDEC Region 2 Headquarters, 47-40 21st St., Long Island City, NY 11101, is responsible for reviewing and issuing the required permits. Tel: (718) 482-4997; email: DEP.R2@dec.ny.gov

Hoja de datos sobre **el sistema de** **cogeneración en** **Bellevue Hospital**

- **Proyecto:** Instalación de 2 unidades de cogeneración
- **Solicitante:** NYC Health and Hospitals Corporation
- **Centro:** NYC Health and Hospitals – Bellevue Hospital, 462 First Ave, New York, NY 10016
- **Número de solicitud de NYSDEC:** 2-6206-00032/00004
- **Se ha desarrollado un Plan de Participación Pública (Public Participation Plan, PPP) de acuerdo con la Política del Comisionado 29, Justicia Ambiental y Concesión de Permisos (Commissioner Policy 29, Environmental Justice and Permitting, CP-29)**

¿En qué consiste el proyecto propuesto?

El proyecto propuesto implicará la instalación y operación de dos (2) nuevos motores de generación combinada a gas natural: Caterpillar G3516H, cada uno con una potencia nominal de 1982 kW. Para implementar el proyecto propuesto, NYC Health and Hospitals ha presentado una solicitud de Renovación de Permiso de Instalación Aérea del Estado con Modificaciones al Departamento de Conservación Ambiental del Estado de Nueva York (New York State Department of Environmental Conservation, NYSDEC) para permitir la instalación y operación de estos motores además de su permiso actual que cubre la participación de seis (6) generadores en Programas de Respuesta Coordinada a la Demanda (Coordinated Demand Response Programs, CDRP). La naturaleza del proyecto es permitir que el Hospital genere su propia energía térmica y electricidad, brindando una mayor independencia energética al reducir parte de la carga de la red eléctrica. El propósito de esta hoja de datos es informar al público sobre este proyecto propuesto e involucrar a la comunidad durante el proceso de revisión de la solicitud de permiso del NYSDEC.

¿Por qué NYC HHC necesita instalar dos motores de cogeneración?

El objetivo principal de este proyecto es proporcionar al Bellevue Hospital un sistema combinado de calor y energía (Combined Heat and Power, CHP) de 4MW capaz de cumplir dos tareas: (1) Proporcionar energía en el sitio en caso de un corte prolongado en los servicios eléctricos públicos y (2) Reducir los costos energéticos y aumentar la eficiencia energética de las instalaciones.

¿Cómo podría afectar el proyecto a la comunidad cercana?

La instalación de estas unidades de cogeneración resultará en un aumento de las emisiones de aire en los alrededores de Bellevue Hospital, pero reducirá el uso general de energía de la instalación. Se ha elaborado un modelo de calidad del aire para asegurarse de que la adición de estas unidades no afectará la calidad del aire ambiental. La instalación de estos nuevos motores de última generación creará resiliencia para el hospital en caso de eventos climáticos extremos o cortes de energía, lo que en última instancia beneficiará a los miembros de la comunidad que utilizan los servicios del hospital. La participación en los Programas de Respuesta Coordinada a la Demanda también ayudará a reducir la tensión en la red eléctrica para evitar cortes de energía en la Ciudad de Nueva York.

¿Cómo puedo participar en el proceso de revisión del permiso?

- Asista a la próxima reunión pública virtual programada para el martes, 12 de septiembre de 2023 a las 6:30 p. m. para obtener información sobre el proyecto, hacer preguntas o expresar sus inquietudes sobre el proyecto.
- Si tiene alguna pregunta o inquietud, o si le gustaría brindar su opinión o hacer comentarios, puede hacerlo por escrito, por teléfono o por correo electrónico al contacto del proyecto que se indica a continuación.

¿Dónde puedo obtener más información acerca del proyecto propuesto?

- Visite el repositorio de documentos en línea en: <https://www.nychealthandhospitals.org/cogen-energy-system/> para obtener materiales de solicitud, documentos relevantes e información sobre el proyecto.
- Comuníquese con Anthony Muhlig por teléfono al 516-974-9712, por correo electrónico a amuhlig@guthdeconzo.com o por escrito a: 1983 Marcus Ave., Suite 103 | Lake Success, NY 11042 para obtener información sobre el proyecto, instrucciones sobre cómo asistir a la próxima reunión pública virtual o para conocer el estado de la solicitud del permiso y el período de comentarios públicos.

¿Quién es responsable de revisar la solicitud de permiso?

- La sede de la Región 2 de NYSDEC, 47-40 21st St., Long Island City, NY 11101, es responsable de revisar y emitir los permisos solicitados. Tel.: (718) 482-4997; correo electrónico: DEP.R2@dec.ny.gov

Appendix C: Contact List Tracking Spreadsheet

	A	B	C	D	E	F	G	H	J
1	Postal Customer	Name, Title	Address 1	Address 2	Address 3	Street Address	City	State	Site Name (County)
2	Contact List								
3	Instructions: 1. Enter NYSDEC Application # and Facility Name (if known) in cells A5 and A6 and the date of the list in D6. 2. Each contact list must include the following categories: local government and elected officials; adjacent business owners, residents, occupants and/or property owners; local civic, community, environmental and religious organizations; local news media; administrator/operator of any school or day care that live, work and/or represent a neighborhood or community within the outreach area specified in the PPP ; and any other parties who have requested to be placed on the site contact list. 3. Residents and businesses adjacent to the site should be identified in Column A as " Postal Customer ". Leave Column B blank. For all other categories of individuals and organizations, identify the name and title (if known) in Column B and leave Column A blank. "Titles" are typically for elected officials (e.g., "Senator," "Assemblyperson," "Mayor," "Supervisor").								
4	4. Row 7 does not contain actual column headings. They are in Row 1, so PLEASE DO NOT CHANGE OR DELETE ROW 1. It is necessary for merging to labels and envelopes. 5. Please put P.O. Box numbers in the "Address 3" column, where possible.

ESTÁ INVITADO

Reuniones públicas virtuales

Jueves, 28 de septiembre de 2023 a las 6:30 p. m.

Instalación de un sistema de cogeneración de 4MW en Bellevue Hospital

462 First Avenue, New York, NY 10016

New York City Health and Hospitals Corporation ha presentado una solicitud de renovación y modificación de permiso de instalación estatal de aire ante el Departamento de Conservación Ambiental del Estado de Nueva York (New York State Department of Environmental Conservation, NYSDEC) para permitir la instalación y operación de dos (2) unidades de generación combinada motores además de la participación de seis (6) generadores en Programas de Respuesta Coordinada a la Demanda (Coordinated Demand Response Programs, CDRP). Se ha desarrollado un Plan de Participación Pública de acuerdo con la Política del Comisionado 29, Justicia Ambiental y Concesión de Permisos (Commissioner Policy 29, Environmental Justice and Permitting, CP-29) del NYSDEC. El propósito de esta reunión es informar al público sobre el proyecto e involucrar a la comunidad durante el proceso de revisión de la solicitud del permiso de instalación estatal de aire.

Programa para el Kínder en la Biblioteca de Queens

La Biblioteca Pública de Queens (QPL) invita a las familias a participar en Kickoff to Kindergarten/Inicio al Jardín de Infantes si su niño tiene entre 3 y 5 años de edad.

K2K está siendo ofrecido virtualmente y en persona en bibliotecas selectas. Familias inscritas en el programa participarán en clases en grupo y tendrán oportunidades para hablar privadamente con la maestra para preguntas y sugerencias. Las clases se ofrecen virtualmente y en persona, con traducción disponible en español.

Preinscríbese ahora para recibir el horario de clases en <https://tinyurl.com/2p-trc6ka>.

Las sesiones grupales semanales para niños y cuidadores incluyen:

- Actividades guiadas
- Cuentos

- Consejos para promover la alfabetización en el hogar
- Oportunidades de orientación y comentarios privados y personalizados

Si tiene preguntas, envíe un email a K2K@queenlibrary.org.

Actualmente se encuentra abierta la preinscripción para las clases virtuales. Próximamente se anunciarán los lugares y las fechas de las clases presenciales. Visite la página de programas de aprendizaje temprano para conocer los lugares y las fechas en: <https://queenslibrary.org/programs-activities/kids/early-childhood-0-5>.

Taller de negocios en español

Únase al campamento de entrenamiento para pequeñas empresas en español en la biblioteca de Langston Hughes.

Este es un programa de seis semanas diseñado para ayudar a los aspirantes a empresarios a transformar sus ideas en realidad. Un equipo de expertos ayudará a los participantes a aprender cómo desarrollar y hacer crecer sus negocios a través de talleres semanales, asistencia individual, grupos de apoyo entre parejas y mucho más.

Disponible los jueves por la noche de 6pm-7:30pm, a partir del 21 de septiembre.

Este programa se llevará a cabo en persona en la Biblioteca de Langston Hughes (100-01 Northern Boulevard). Este programa se impartirá únicamente en español.

Aplice en: <https://forms.office.com/r/Wqz7zdz2jh> antes del 15 de septiembre. Este programa es patrocinado por el Banco de Ponce. ●
