Directions To Woodhull

760 Broadway Brooklyn, New York 11206

NYC Health + Hospitals/ Woodhull is located at the intersection of Broadway and Flushing Avenue.

By Subway

Take the J, M, or Z train to Flushing Avenue. Take the elevators or stairs to reach the southwest corner of Broadway and Flushing, where the main entrance is located.

Alternatively, take the G train to Flushing Avenue, then take the B57 bus or walk three blocks east toward Broadway, and the main entrance.

By Car

From Brooklyn: Take the Brooklyn-Queens Expressway (BQE) to the Flushing Avenue exit; turn right onto Flushing Avenue; then continue to Woodhull.

From Queens: Take the BQE to McGuinness Blvd (the first exit over the Kosciusko Bridge); at the third light, turn left onto Humboldt Street (under the bridge), which leads directly to Woodhull. You may take the Jackie Robinson (Interboro) Parkway, to the Bushwick Ave. exit; continue to Myrtle Ave; turn left on Myrtle and go to Throop Ave; turn right on Throop, then continue to Woodhull.

From Manhattan: Follow the Williamsburg Bridge to Broadway (the first exit), and turn left; go straight to Woodhull. You may take the Brooklyn Bridge, by going to Tillary St. (the first light); turn left and go to the BQE; exit at Flushing Avenue; turn right, then go to Woodhull.

By Bus

B15, B40, B46, B43, B54, B57 and B62

The Weight Loss Center

This comprehensive center includes weight loss surgery and expert advice on how to approach the treatment of obesity for yourself or your loved one.

You can book a consultation to meet one of our team members to assist you in deciding what course of action is best suited for your personal needs.
We offer:

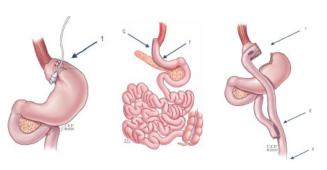

- + Nutritional/Diet Counseling.
- + Pre-surgical psychological evaluation and post-surgery follow-up.
- + Medical management and bariatric surgery.
- + Bariatric support groups.

Our team is fully bilingual (Spanish and French) and are experts in the field of Obesity Medicine and Surgery. They are comprised of a bariatric surgeon, endocrinologist, physician assistants, a psychologist, a dietitian, nurses, patient care associates and administrative staff. We are here to help you through your journey providing expert advice along the way.

We offer all the different surgical interventions for the treatment of obesity and medical related comorbidities like Diabetes including:

- + Laparoscopic Sleeve gastrectomy.
- Laparoscopic Roux-en-Y gastric bypass.
- + Laparoscopic Duodenal switch and SADI.
- + Laparoscopic revision of previous Bariatric Surgery.
- We offer one-on-one counseling before and after surgery, support groups and ongoing help with diet and psychological counseling.

Gastric Band

Gastric Sleeve

Gastric Bypass

Who qualifies for surgery? Most insurance companies provide the benefits for surgery when:

- Body Mass Index (BMI) is greater than 30.
- Along with the BMI of >30 you have a medical problem such as diabetes, hypertension, hyperlipidemia (high cholesterol), osteoarthritis, or sleep apnea.
- Body Mass Index can be calculated using pounds and inches with this equation BMI = (Weight in Pounds/ (Height in inches) x (Height in inches) x 703 For example, a person who weighs 260 pounds and is 5 feet 6 inches tall has a BMI of 42.
- If you do not have any medical problems, your BMI must be 40 and above.

Thank you for choosing

NYC Health + Hospitals/ Woodhull as your hospital of choice!
