The annual New York City Trauma/EM
 Symposium represents the longest running
 regional conference dedicated solely to the management of trauma patients.

NYC Health + Hospitals | Jacobi has hosted some of the world's foremost leaders in trauma care at the Symposium and continues to attract internationally recognized faculty. The program has been especially designed for all trauma professionals including surgeons, emergency physicians, intensivists, advanced practice providers, as well as nursing staff and pre-hospital care providers.

The New York City Trauma/EM Symposium was founded in 1999 in honor of our friend and colleague, **Warren Wetzel, MD**, whose legacy of dedication to the care of the critically injured continues to inspire us.

DIRECTIONS

Situated on a large tree-lined

Pelham Parkway South in the

northeast section of the Bronx

between Eastchester Road and

On campus guest parking is very

Eastchester/Morris Park

Avenue stop. Walk through
