	Average length of stay for individuals in custody who received mental health services (days) ²	216	217	253	273	208	192	217	210	196	203	175	178	167	167	129	136

1. Denominator only includes patients for whom the current hospitalization occurs in the reporting quarter. Any patient whose current hospitalization occurred in a different quarter than the preceding (but still within 30 days) will be counted in the quarter of the current hospitalization.

2. Includes persons discharged during the timeframe. Average length of stay is calculated based on DOC's dates of admission to and discharge from jail.
