

Care for NYC. No Exceptions. **NYC  
HEALTH+  
HOSPITALS**

### NYC HEALTH + HOSPITALS/METROPOLITAN

NYC Health + Hospitals/Metropolitan is a 338-bed facility serving East Harlem and surrounding communities. Known historically as the primary health care provider in El Barrio, Metropolitan delivers high-quality, compassionate care through over 400,000 clinic visits and more than 60,000 emergency room visits annually. The hospital is a designated Sexual Assault Forensic Examination (SAFE) Center of Excellence and a recognized "Leader in LGBTQ+ Healthcare Equality" by the Human Rights Campaign. Metropolitan has earned numerous honors, including the AORN, Beacon, Lantern, and Pathway to Excellence with Distinction awards, and national recognition in U.S. News & World Report's Best Hospitals list. With a legacy spanning 150 years, Metropolitan maintains the nation's oldest municipal hospital-medical school affiliation through its longstanding partnership with New York Medical College.

- Prostate and bladder procedures
- Coordination for advanced oncology care when needed

# Prostate Cancer Prevention, Treatment & Education

## Prevention & Early Detection

Prostate cancer is the second most common cancer among men in the United States. Regular screenings, including prostate-specific antigen (PSA) testing, and rectal exams help detect prostate cancer early, when treatment is most effective.

## Comprehensive Treatment Options

Metropolitan Hospital's urology team offers a full range of evidence-based treatments, from active surveillance for low-risk cases to surgery, radiation, and minimally invasive procedures for more advanced disease.

## Patient-Centered Support

We provide education, counseling, and follow-up care to guide patients and families through diagnosis, treatment, and survivorship, ensuring informed decisions and holistic support.
