EpicCare Link is a secure Web portal that connects you to information stored in our EMR for your referred and admitted patients.

As your patients receive care from us, we'll send you notifications and updates. You'll have the information you need to plan patients' ongoing care and they'll feel better, knowing that you're up to speed on all the care they receive.

### Refer patients from your browser.

You can request consults, place orders and referrals, and send messages to our providers directly from your browser. You no longer need phone or fax—we'll send you confirmations and patient updates in real time.

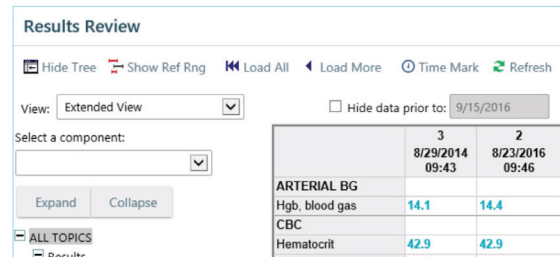

Automatic updates about your patients.

### We'll keep you informed about their care.

With automatic messages about important events, you can have the latest information about your patients' treatment.

We'll notify you to log in to see:

- + Lab, imaging and test results
- + Hospital admissions
- + Discharge summaries
- + PACS images and scanned files
- + Consultation notes
- + Orders placed by our physicians ...and more

Access to patients' results, notes, orders, and more.

### It's all online. No software to install.

This online portal provides secure, convenient access to patient information through your browser - when and where you need it.

Your access is easy to set up and there's no software or hardware to maintain, so you can concentrate on caring for your patients.
