

Identifier (i.e., Patient A, Employee B, Respondent 1) or Name (only if requested by stakeholder)	Organization (if applicable)	Date(s) of outreach	What required stakeholder group did they represent?	If other, please describe	Is this person/ organization a resident of the project's service area?	Method of engagement (i.e., phone calls, community forums, focus groups, surveys, etc.)	Did this person/ organization participate in the meaningful engagement?	Is this person/ organization supportive of this project?	Did this person/ organization provide a statement?	If permission is granted to share a statement or quote (250 word max), please include below:	If permission is not granted to share a verbatim statement, please include a summary of the statement(s) below:
Person A	Bronx Health Link	4/1/2026	community-based organizations		Yes	Teams Meeting	Yes	Other	no		The organization focuses on maternal - child health care. The Bronx competes with Brooklyn in having the highest rates of infant and maternal mortality. It makes sense to have a one-stop place for care, but we have to see whether it works in practice. There are many potential benefits. Some questions to consider is how will people navigate the space and services. Confusion will reduce those who want to return. Will people want to use the service? Lincoln has problems with its reputation in the community -- it is a skeptical community. It will be very important what happens in practice. The interviewee doesn't know enough about the project to support it but supports the idea in principle. It is very important to have on-the-ground practitioners and patients involved in the workflow and room design.
Person B	St. Anns Harm Reduction	3/16/2026	community-based organizations		Yes	Teams Meeting	Yes	Yes	no		The community this organization represents -- persons living on the street -- have a troubled relationship with the healthcare system. Low threshold, low stigma access to services is important for this community. There is an aversion to going to hospitals. CBOs, like this one, connect people to health services. We provide a low threshold for access -- people can come right off the streets and receive services the same day without paperwork, insurance, or having to meet with multiple staffers. The project is a great step in the right direction. Our concern is that people may be reluctant to use the services. It will take a lot of work with CBOs to build relationships. A trust relationship will have to be built. We support the project but are concerned that the a lack of trust in the community will result in it being underutilized. Partnerships with CBOs are key here. The CBOs will be critical for building trust. There need to be warm handoffs from the CBOs to the RISE Center. Also recommended is training on destigmatization. Outreach into the community with mobile vans is valuable. The staff has to be trained on harm reduction across the staff, top to bottom. Staff should visit and tour CBOs, including administrative staff who are the first contact with clients. An antistigma and antiracist mindset is crucial.
Person C	Lincoln Hospital Community Advisory Board	3/23/2026	community-based organizations		Yes	Teams Meeting	Yes	Yes	no		This interviewee emphasized continuity of care and working with community providers. Having a clear pathway for care is important. The integrated approach for the RISE Center makes sense. The design should be mindful to destigmatize the space. It should be beautiful and blend with other space in the hospital. The project is supported. There were many recommendations: In additionto an emphasis on continuity of care there needs to be outreach to community. Attention to patient navigation, adequate space, and managing wait time is emphasized. Transportation linkages are also recommended. Also recommends that the RISE Center do a presentation to the full CAB.
Person D	Bronx Movil	3/24/2026	community-based organizations		Yes	Teams Meeting	Yes	Yes	no		Lincoln has a negative reputation in the community that dates back to the 1970s for maternal care. Equity is not centered and the unhoused are not treated well.. Reputation needs to be addressed head on. The interviewee provided an extensive history of substance use treatment at Lincoln and negative community experiences that developed from that history. Yes, the project is supported and is needed. The South Bronx is the center of the overdose epidemic in NYC. But whether this organization would refer patients is another thing. There is concern about sustainability. Part of the community reputation is that programs are lost. We have concerns with mandated reporting. That can be a deterrent for persons seeking services. How the family regulation system will be involved needs to be clarified. Outreach needs to be old-school -- people don't have laptops, smart phones, or access to portals. It is very important to be careful about language and to use less stigmatizing language -- for example, avoiding the word "addiction." It is important to disaggregate race and ethnicity; to recognize specific communities. There should be a participant [consumer] board in addition to a community advisory board.

Person E	NYC Dept of Health and Mental Hygiene	4/20/2026	public health experts		Yes	Teams Meeting	Yes		no	<p>The NYC Health Department has reviewed RISE Center's application materials and has the below recommendations to improve health equity:</p> <p>The facility should be prepared to address stigma, medical hesitancy, and post-traumatic stress in patients. Additionally, the facility should develop plans to address interpersonal violence and reduce threats of criminalization for women and families.</p> <p>Post-treatment, we recommend follow-up for minimum six months with patients to ensure continuity of care. We recommend hiring additional primary care providers for pregnant families, children, and caregivers, including those more than one degree away. If referrals occur, this should be to nearby facilities, regardless of if outside H+H's system.</p> <p>All staff should be hired from the local community to meet the diverse needs and experiences of patients. The facility should also advertise and provide linkages to doula programs to advocate for birthing women. We recommend the facility expand its walk-in hours for flexibility for working patients and families. The facility should ensure childcare is available during all operating hours, expand capacity based on demand, and provide training for parents. The facility should ensure adequate waiting and relaxation spaces for families.</p> <p>We advise the facility to translate mandatory reporting policies in many languages, hire additional Spanish interpreters, and consider ways to reduce stigma, hesitancy, and build trust, including targeted outreach and public engagement opportunities. We agree with the IE's recommendation to establish a Patient Advisory Board. Finally, the facility should provide on-site enrollment in public benefits, transportation, and financial assistance.</p>	
Person F	NYC Dept of Health and Mental Hygiene	4/20/2026	public health experts		Yes	Teams Meeting	Yes		no	see above	
Person G	NYC Dept of Health and Mental Hygiene	4/20/2026	public health experts		Yes	Teams Meeting	Yes		no	see above

Person J	NYC Dept of Health and Mental Hygiene	4/20/2026	public health experts		Yes	Teams Meeting	Yes		no	see above	
Person K	NYC Dept of Health and Mental Hygiene	4/20/2026	public health experts		Yes	Teams Meeting	Yes		no	see above	
Person L	NYCHH Gotham Health (Primary Care Clinics)	4/21/2026	public health experts		Yes	Teams Meeting	Yes	Yes	no		<p>The organization is an FQHC that is part of NYCHH and the interviewee is a primary care practitioner. It is great to have a higher level of integrated services available that patients can be referred to. We would want them back after the baby is born and they are stable. These services are well-positioned to serve the community. There are many barriers people in the community experience, especially for patients who have challenges navigating health care. The project is supported, it would be great for patients and the community. We would want patients to return to us, we don't want want to break long-term relationships. Language and culture is critical. Continuity of care for pediatrics is important, so their should be a strong relationship with community pediatrics. We have a community advisory board with residents adn would be willing to make connections between the RISE Center and our community advisory board.</p>

Respondent 8		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		
Respondent 9		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	Yes	Es Necesario La Reunines Rise para la Cummunida [RISE meetings [?]] are necessary for the community]	They indicated that services have benefitted them, and that they thought the project was good for the community.
Respondent 10		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	NA	No		
Respondent 11		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		They liked that services would be available in one place. Service and care is important to them for their treatment.
Respondent 12		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		They have a positive view of providing comprehensive services.
Respondent 13		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	Yes	Me Parece Muy Bien En que agan este programa Le va a Funcionar a muchas personas [I think it's very good that they are doing this program. It will help many people.]	Although the respondent doesn't need these kinds of services they think it will be beneficial for their children and the community.
Respondent 14		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		The respondent commented that new ways of thinking are important for their health. It is important to them see how a baby is developing.
Respondent 15		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	Yes	NA	Mentioned reduced wait times, wanted better hours for acupuncture, food, and gift cards. They wrote that their counselor helped with their treatment.
Respondent 16		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Neutral	Yes	I need assistance support and help with housing employment and continued counseling after graduating. Can RISE Center offer at least [?] counseling after graduating?	The respondent mentioned the benefits of acupuncture, and one-on-one counseling. They are open to any true improvement.
Respondent 17		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	No	Yes	Why would you have children and families around adults who are suffering with mental health issues? Once you group people to one floor everyone will know what their needs ARE	The respondent is concerned about privacy. They commented that children should not be in the same area as adults.
Respondent 18		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		
Respondent 19		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	Yes		
Respondent 20		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	Yes	This would be very helpful to the community in general	The respondent wrote that although this would not help them personally they like the improvements it make for womens' health.
Respondent 21		4/17/2026	patients or residents and/or their caregivers		Yes	Onsite Survey	Yes	Yes	No		They didn't think it would affect them but maybe other people in their community. They commented on having information about parenting being valuable.
