

# COVID-19

## Updated Hospital Visitor Policy

Patients are allowed no more than 2 visitors at a time.

All visitors must show proof of being up-to-date on COVID-19 vaccination or have a negative COVID-19 test result issued in the last 48 hours.

We will check if visitors show COVID-19 symptoms, or may have been exposed to someone with COVID-19.

Exceptions to this policy may apply when:

- + visit is medically-necessary and essential to the patient's care
- + patient is in an end-of-life situation
- + patient is receiving labor and delivery services
- + patient is an infant in the neonatal ICU, or a minor
- + patient has a developmental or cognitive disability
- + patient needs other support

If you need a COVID-19 test or vaccine, our patient navigators can direct you to our testing or vaccination clinics today.
